

Tip Tuesday

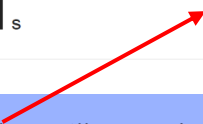

Need a Timer - Quickly? Google It!

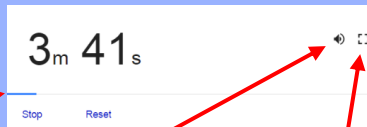

Quickly get a timer by using the Google search box:

1. In the Google search box, enter "Timer for 4 minutes" (enter whatever time you need - seconds, hours too!).
2. The timer appears and starts! It's that easy.

Timer Features:

- 🕒 A blue line moves across the timer during countdown, creating a visual. 
- 🕒 By default, a sound will play when time runs out. Clicking the speaker will mute the sound. 
- 🕒 To show the timer Full Screen, click the box next to the speaker. 
- 🕒 You can easily "Stop" "Reset" and "Start" the timer again.

Give it a try today!
